Company Overview

All Matters Roofing

We specialize in supply and installation advanced roofing, thermal insulation, waterproofing & sound / acoustic products in Kenya. We are committed to providing innovative and sustainable solutions that meet the evolving needs of our customers.

With a focus on quality and customer satisfaction, we offer a wide range of products that are manufactured to the highest standards and comply with relevant regulations and requirements. Our experienced team is dedicated to providing exceptional service and support to ensure that our customers receive the best products and advice.

Our Vision

To be the leading provider of innovative engineering and construction solutions, delivering exceptional building materials, insulation products, and light gauge steel roofing to enhance the sustainability and efficiency of structures worldwide.

We foster a culture of innovation, continuously exploring new technologies, materials, and methodologies. By staying at the forefront of industry advancements, we provide our clients with cutting-edge solutions that enhance their construction projects.

Our Mission

Our mission is to provide top-quality roofing, thermal insulation, waterproofing & sound / acoustic solutions to our clients, empowering them to construct environmentally friendly and energy-efficient buildings.

We are committed to providing the best possible construction expertise & service to ensure cost effective and successful projects.

OUR TEAM:

With expertise across every stage – from consultation to installation – we work together to provide the right products, expert advice, and flawless execution. Our commitment to excellence and continuous learning ensures we stay ahead of industry trends.

What We Believe

Our core values

MECQISICS

QUALITY

We are committed to delivering superior quality products that meet or exceed industry standards. We consistently invest in research and development to ensure our materials, insulation products, and light gauge steel roofing are of the highest caliber.

INNOVATION

We foster a culture of innovation, continuously exploring new technologies, materials, and methodologies. By staying at the forefront of industry advancements, we provide our clients with cutting-edge solutions that enhance their construction projects.

SUSTAINABILITY

We are deeply committed to environmental sustainability. We prioritize eco-friendly manufacturing processes and promote the use of sustainable materials. Our goal is to minimize the carbon footprint of construction projects and contribute to a greener future.

INTEGRITY

We conduct our business with the utmost integrity and ethical standards. Honesty, transparency, and fairness are the cornerstones of our interactions with clients, suppliers, and employees. We build trust through open communication and a commitment to delivering on our promises.

CUSTOMER FOCUS

Our clients are at the heart of everything we do. We strive to understand their unique requirements and provide personalized solutions that meet their specific needs. Our dedicated customer support team ensures exceptional service, prompt responses, and a seamless experience throughout the project lifecycle.

SAFETY

We prioritize the safety and well-being of our employees, contractors, and customers. We adhere to strict safety protocols and standards, ensuring that all construction projects are carried out in a safe and secure manner.

We're Your Ideal Solution

What Sets Us Apart?

Expertise and Experienced

At MEC, we bring years of expertise and experience to every project. Our skilled team ensures top-notch craftsmanship, attention to detail, and successful outcomes, making us a trusted choice for all construction needs.

Innovative and Quality Services

At MEC, we deliver innovative, high-quality construction services with a focus on precision and sustainability. Our experienced team ensures every project is completed with excellence and efficiency.

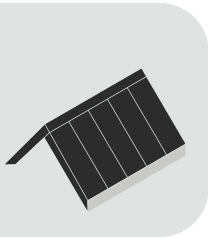

Our commitment to quality

Our commitment extends beyond products and services — it's about delivering reliability, safety, and complete customer satisfaction. We continuously review and improve our practices to remain at the forefront of innovation, ensuring our clients receive nothing less than the best.

Products & Services

Advanced roofing solutions

We specialize in Timber roofing , Light Gauge Steel (LGS) roofing, and Standard Gauge Steel (SGS) roofing. With years of experience in the roofing industry, our expert team ensures that every roofing project is completed with precision, reliability, and excellence. We cater to residential, commercial, and industrial clients, delivering customized roofing solutions that meet diverse needs and preferences.

Thermal insulation

MEC specializes in providing high-quality roof and wall thermal insulation solutions for residential, commercial, and industrial properties. With an unwavering commitment to energy efficiency, environmental sustainability, and cost-effective solutions, we are proud to help clients achieve optimal comfort and energy savings. We offer a range of tailored insulation products and services designed to meet your unique needs.

Waterproofing

We excel in waterproofing solutions, protecting structures against water infiltration and damage. Our technicians employ advanced waterproofing membranes, coatings, and sealing techniques to create robust and durable waterproofing systems. We prioritize meticulous workmanship and utilize industry best practices to ensure long-lasting protection against leaks, dampness, and structural deterioration.

Soundproofing & Acoustic Insulation

We understand the importance of acoustic comfort in residential, commercial, and industrial settings. Our sound insulation solutions effectively reduce unwanted noise transmission, creating peaceful and productive environments. Through the use of specialized materials, such as acoustic panels, barriers, and vibration isolators, we tailor solutions to minimize noise pollution and meet the specific needs of each project.

Cyclone ventilation installation

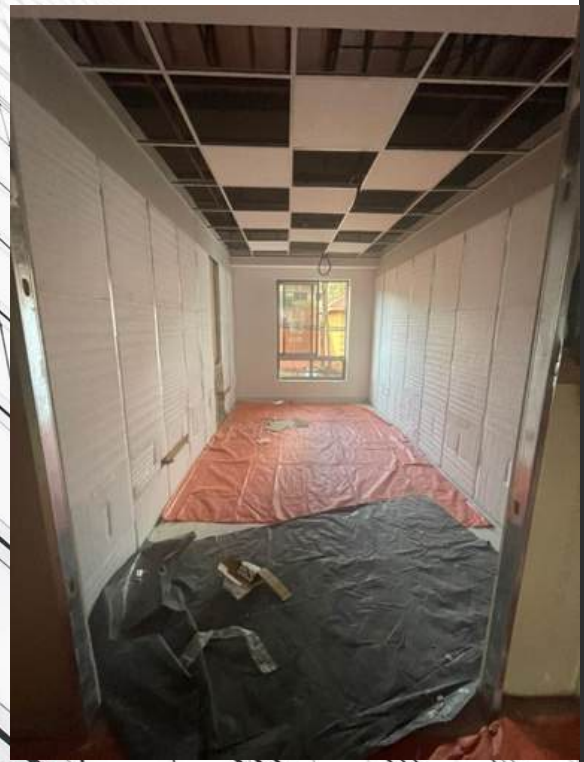

We provide comprehensive cyclone ventilation solutions, dedicated to creating healthier and more comfortable indoor environments. We specialize in the supply, installation, and maintenance of high-quality wind-driven roof ventilators, commonly known as cyclone ventilators. With a commitment to excellence and customer satisfaction, we deliver tailored ventilation solutions to meet the unique needs of residential, commercial, and industrial clients.

Construction Material Supply

We specialize in supplying and installing advanced roofing, thermal insulation, waterproofing, and sound/acoustic products in Kenya, offering innovative, sustainable, and eco-friendly solutions that meet the highest quality standards. Our range includes premium roofing materials, energy-efficient insulation, durable waterproofing systems, and high-performance acoustic products, all backed by expert advice, exceptional service, and a commitment to customer satisfaction and environmental preservation.

Our Projects

Our Projects

Our Projects

SUSTAINABILITY & SOCIAL RESPONSIBILITY (CSR)

At Monochrome Engineering & Construction, We are committed to sustainability and corporate social responsibility (CSR) as integral parts of our operations. As a leader in roofing, thermal insulation, waterproofing, and soundproofing solutions, we recognize our role in reducing environmental impact and promoting positive change. Our commitment to sustainability is reflected in our materials, processes, and community involvement. Here's how we make a difference:

Environmental Sustainability

- Eco-Friendly Materials
- Energy Efficiency
- Sustainable Manufacturing
- Waste Reduction and Recycling

Social Responsibility

- Community Engagement
- Fair Labor Practices
- Health and Safety
- Education and Awareness
- Supporting Green Innovation

At Monochrome Engineering & Construction sustainability and social responsibility are not just buzzwords; they are principles that drive our business. By embracing these values, we are not only reducing our own environmental impact but also helping our customers, partners, and communities lead the way toward a greener, more sustainable future. We are proud to offer solutions that protect both buildings and the environment while enhancing the quality of life for generations to come.
